

Agenda Item Details

Meeting	May 14, 2019 - Regular Board Meeting
Category	H. Consideration and Possible Action (Measure B)
Subject	2. Bolinas Project - Approval of Plan Design being submitted to the County of Marin - Revised
Type	Action
Fiscal Impact	Yes
Budgeted	Yes
Budget Source	Measure B Bond Funds: Bolinas Project
Recommended Action	The Superintendent/President recommends that the Board of Trustees approve conceptual design for the Bolinas Field Station in Bolinas California for the purpose of submitting the design to the Planning Division of Marin County.

The Bolinas Field Station has been dormant for over 10 years and has become a blight for the District and the town of Bolinas. Efforts have been underway since September 2018 to determine what options are available for the site that will meet the program needs of the District.

Staff recommends the approval of a conceptual design for the Bolinas Field station that incorporates input from the faculty, staff and administrator planning committee, the Board of Trustees April 2019 meeting and the Bolinas community meeting on May 1, 2019.

The County review timeline can take from 9 to 15 months depending on requirements, revisions and required CEQA reviews. Upon approval from the County of Marin to proceed, the District will then seek additional approval as directed by the County of Marin. Construction will be scheduled once all agencies and permits are approved and granted.

The project budget is estimated at approximately \$3 million and will be funded by private donations and Measure B bond funds.

Motion & Voting

The Superintendent/President recommends that the Board of Trustees approve conceptual design for the Bolinas Field Station in Bolinas California for the purpose of submitting the design to the Planning Division of Marin County.

Motion by Stephanie O'Brien, second by Eva Long.
