

RESOLUTION NO. 2016-3

RESOLUTION OF THE BOARD OF TRUSTEES OF THE MARIN
COMMUNITY COLLEGE DISTRICT ORDERING AN ELECTION,
AND ESTABLISHING SPECIFICATIONS OF THE ELECTION
ORDER

WHEREAS, the Board of Trustees (the “Board”) of the Marin Community College District (the “District”) has determined that certain educational facilities, infrastructure and equipment at each of the District’s campuses need to be constructed, renovated, acquired and equipped in a fiscally prudent manner, to enable the District to maintain College of Marin as a valuable community resource that provides an affordable, local education, which increases the educational opportunities of all local students, including career and support facilities for veterans who desire to learn in-demand job skills or transfer to four-year universities; and

WHEREAS, like with most community resources, the District partners with area employers and private businesses to train students and save taxpayer money; and

WHEREAS, for the 13,000 students educated at the College of Marin the costs of attending a U.C. and State college are becoming so expensive, more students are relying on College of Marin, and the high quality, affordable college options it provides; and

WHEREAS, in today’s economic times and competitive job environment, the District must continue providing important training and education for local residents entering the workforce for new professions and income opportunities, as well as for local students to earn college credits, certifications and job skills all at a reasonable price; and

WHEREAS, the State of California is not providing the District with enough money for the District to adequately maintain College of Marin’s educational facilities and academic programs; and

WHEREAS, the Board has received information regarding the feasibility of a local bond measure and the District’s bonding capacity; and

WHEREAS, a local measure will help provide funds that cannot be taken away by the State to support local college transfer and job training; and

WHEREAS, such local measure will include mandatory taxpayer protections, including an independent citizens’ oversight of all funds and mandatory annual financial audits to ensure funds are spent only as authorized; and

WHEREAS, the Board and District has solicited stakeholder and community input on priorities from students, faculty, staff, business and civic leaders, and the community; and

WHEREAS, in the judgment of the Board, it is advisable to provide additional funding to improve facilities to better prepare local students and veterans for transfer to four-year colleges and universities, and/or successful jobs and careers, by means of a general obligation bond, issued in a financially prudent manner; and

WHEREAS, on November 7, 2000, the voters of California approved the Smaller Classes, Safer Schools and Financial Accountability Act (“Proposition 39”) which reduced the voter threshold for *ad valorem* tax levies used to pay for debt service or bonded indebtedness to 55% of the votes cast on a community college district general obligation bond; and

WHEREAS, concurrent with the passage of Proposition 39, Chapter 1.5, Part 10, Division 1, Title 1 (commencing with Section 15264) of the Education Code (the “Act”) became operative and established requirements associated with the implementation of Proposition 39; and

WHEREAS, the Board desires to make certain findings herein to be applicable to this election order and to establish certain annual financial audit requirements standards of financial accountability and citizen oversight which are contained in Proposition 39 and the Act; and

WHEREAS, the Board determines that, in accordance with Opinion No. 04-110 of the Attorney General of the State of California, the restrictions in Proposition 39, which prohibit any bond money from being wasted or used for inappropriate administrator salaries and other operating expenses of the District shall be strictly monitored by the District’s Citizens’ Oversight Committee; and

WHEREAS, pursuant to Education Code Section 15270, based upon a projection of assessed property valuation, the Board has determined that, if approved by voters, the tax rate levied to meet the debt service requirements of the bonds proposed to be issued will not exceed the Proposition 39 limits per year per \$100,000 of assessed valuation of taxable property; and

WHEREAS, Section 9400 *et seq.* of the Elections Code of the State of California (the “Elections Code”) requires that a tax rate statement be contained in all official materials, including any ballot pamphlet prepared, sponsored or distributed by the District, relating to the election; and

WHEREAS, the Board now desires to authorize the filing of a ballot argument in favor of the proposition to be submitted to the voters at the election; and

WHEREAS, pursuant to the California Elections Code, it is appropriate for the Board to request consolidation of the election with any and all other elections to be held on Tuesday, June 7, 2016, and to request Marin County Registrar of Voters to perform certain election services for the District; and

WHEREAS, in the judgment of the Board, it is advisable to request Marin County Registrar of Voters to call an election pursuant to Proposition 39 on the question of whether general obligation bonds shall be issued and sold on behalf of the District for purposes set forth below.

PROJECTS

The Board of Trustees of the Marin Community College District, to be responsive to the needs of its community, evaluated College of Marin’s urgent and critical facility needs, and its capacity to provide students, active military and Veterans with support facilities, an **affordable education** and prepare them for success in college and careers. 21st Century job training, earthquake and fire safety issues, enrollment, class size and class offerings, and information and computer technology infrastructure were each considered, in developing the scope of projects to be funded. In developing the scope of projects, the faculty, staff, students and community have **prioritized local job training**, particularly in firefighting, paramedic/911 emergency medical and other healthcare training, as well as facilities available to support an affordable education, so that the most critical needs that will make the College of Marin an effective place for learning, would be addressed. Based on Board, faculty, student and community input, it was concluded that if these facility needs were not addressed now, the College of Marin would be unable to remain competitive in preparing students for jobs in high demand industries and university transfer. The Board concluded that the longer they waited to repair and upgrade College of Marin, the more expensive it would be. **In approving the Projects, the Board of Trustees determines that College of Marin MUST:**

- (i) **Provide classrooms to train firefighters, paramedics and other healthcare professionals; and**
- (ii) **Provide a high quality education that prepares students to four year colleges, like U.C. Berkeley; and**
- (iii) **Provide campus facilities that provide job training for returning veterans; and**
- (iv) **ENSURE THAT EVERY PENNY FROM THIS MEASURE BENEFITS COLLEGE OF MARIN CAMPUSES, AND THAT NO FUNDS CAN BE TAKEN BY THE STATE; AND**
- (v) **ENSURE THAT NO MONEY FROM THIS MEASURE BE USED FOR ADMINISTRATOR SALARIES OR ADMINISTRATION.**

The following types of projects are authorized to be undertaken at College of Marin:

LOCAL FUNDS FOR JOB TRAINING AND TRANSFER:

**Academic Facility and Technology Upgrade Projects
To Help Students, Transfer to Four-Year
Universities or be Trained For 21st Century Jobs**

Goals and Purposes: Ensuring students and veterans are either prepared for transfer to University of California or State college systems or trained for in-demand, good paying jobs are major objectives of College of Marin.

College of Marin has served Marin County residents for over five generations providing essential job training and workforce preparation in firefighting, nursing, paramedic/911 emergency medical and other healthcare professional training. Funding needed repairs and upgrades to support vital educational programs will ensure College of Marin continues to keep our local economy thriving by providing job retraining and skill enhancement for thousands of workers each year.

Thus the District requires FUNDS that ARE LOCALLY CONTROLLED to improve academic facilities which will allow them to continue providing access to affordable, high quality education to local students and veterans, including:

- Modernize classrooms for job training in technology, computers, engineering, firefighting, paramedical and other healthcare professions.
- **Repair and upgrade vocational classrooms and training centers for 21st Century jobs.**
- **Repair and maintain classrooms, science classrooms and labs and vocational education facilities.**
- Provide adequate classrooms and labs for career training and transfer to universities.
- Upgrade computer labs and classroom instructional technology.
- Update classrooms and educational facilities to meet current earthquake, fire and safety codes.
- Update campus facilities to provide access for students with disabilities.
- Increase energy efficiency by replacing aging heating, ventilation and air-conditioning systems with energy-efficient models and install energy saving dual pane windows to reduce operating expenses.
- Upgrade and replace existing information technology infrastructure and network systems to improve efficiency and increase capacity.
- Upgrade and build academic buildings to expand classrooms for job training and career technical education.
- Replace deteriorating portable classrooms with permanent classrooms.

LOCAL FUNDS FOR BASIC REPAIRS:

Projects Needed To Meet Current Safety Building Codes And Demand for Classes

Goal and Purpose: Since the oldest college buildings are more than 45-years old, upgrades are needed to meet current building codes for earthquake, fire and safety dangers. With upgraded facilities and science labs, College of Marin can meet the growing student demand for these types of job training and transfer classes:

- **Repair or replace leaking roofs.**
- Renovate, repair or replace outdated laboratories, classrooms, training centers and support facilities.
- Replace deteriorating portable classrooms with up-to-date permanent classrooms.
- Update classrooms and educational facilities to meet current earthquake, fire and safety codes.
- Update campus facilities to provide access for disabled students.
- Increase energy efficiency by replacing aging heating, ventilation and air-conditioning systems with energy-efficient models and install energy-saving dual pane windows to reduce operating expenses.

Some projects may be undertaken as joint use projects in cooperation with other local public or non-profit agencies. The budget for each project is an estimate and may be affected by factors beyond the District's control. The final cost of each project will be determined as plans and construction documents are finalized, construction bids are received, construction contracts are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed.
