

COLLEGE OF MARIN

Notice of Construction Activity
April 10, 2023 – April 16, 2023

Please see below for construction activities happening on the site of the Learning Resources Center, **April 10 – April 16.**

1. Grading in Area F (see attached map for precise location)
2. Mass excavation and removal of dirt (more detail below)
3. The potential delivery of structural steel I-beams for shoring.

Noise you will expect to hear onsite:

1. Large equipment
2. Idling trucks
3. Back up alerts

Due to weather, the mass excavation and removal of dirt off of the site will begin next week. This work requires approximately 96 loads of dirt to be removed via truck each day. 3 Trucks will move loads beginning at 7am until 4pm in the afternoon. The team will monitor traffic conditions and make modifications so as to minimize traffic impacts. A specific route has been identified for the trucks to utilize while do this specific work. That route is outlined in the attached document “COM LRC – Large Truck Route FINAL” and all safety precautions will be in place.

If you have any questions, please reach out to Klaus Christiansen directly.
